

AI INNOVATION HACKATHON 2026

OFFICIAL SUBMISSION FORMAT

Stage 1 — Idea Submission & Screening

Date: 19 October 2026

Participants submit or pitch a proposed solution based on one published problem statement. The idea submission is not the final project submission.

Required Information

- Team name
- Team members
- Selected problem statement
- Problem understanding
- Proposed solution
- Innovation / novelty
- Proposed technology / AI approach
- Expected impact
- Brief implementation plan

Screening & Selection

Ideas may be evaluated on understanding of the problem, relevance, innovation, feasibility, appropriate use of AI/technology, potential impact and clarity of the proposed approach. Only selected teams proceed to the Main Hackathon / Final Development Round.

Stage 2 — Final Project Submission

Date: 20 October 2026

Final-round teams must submit their completed project through the official submission process provided by the organizers.

Required Final Submission Information

- GitHub repository URL
- Team details
- Selected problem statement
- Project description
- Demo link / video, where applicable
- Required documentation
- Other information requested by the organizers

The GitHub repository and the official submission form together constitute the final submission.

20 October 2026 — Main Hackathon Schedule (IST, UTC+5:30)

Time	Activity
10:00 AM	Opening Ceremony
10:30 AM	Development Begins
10:30 AM – 6:00 PM	Development & Testing
6:00 PM	Final Submission Deadline
6:00 PM – 8:00 PM	Judging
8:00 PM	Results & Closing

GitHub Repository Requirements

- Source code
- README.md
- Requirements / dependencies
- Installation instructions
- Usage instructions
- Documentation
- Dataset information
- Model information
- Screenshots
- Demo information
- Credits / attributions

README.md Requirements

- Team name
- Team members
- Selected problem statement
- Problem description
- Proposed solution
- Key features
- Technology stack
- Methodology
- Architecture / workflow
- Installation instructions
- Usage instructions

- Dataset information
- Models used
- Results
- Screenshots / demo
- Limitations
- Future scope
- External resources / attributions

Final Submission Checklist

- Correct team details
- Correct selected problem statement
- Source code uploaded
- README completed
- Requirements / dependencies included
- Dataset and model information provided
- External resources acknowledged
- Demo prepared, where applicable
- GitHub repository accessible to judges
- No passwords, API keys, access tokens or sensitive credentials uploaded
- Official submission form completed
- Final submission completed by 6:00 PM IST on 20 October 2026

Important Notes

The version available at the 6:00 PM IST submission deadline will be considered for evaluation, subject to the official Rules & Regulations. Teams remain responsible for ensuring their repository and submitted information are accurate and accessible.

AI-assisted development tools are permitted as described in the official Rules & Regulations; significant use should be disclosed where requested. External resources, datasets, APIs, libraries and models must be used lawfully and appropriately acknowledged.

Do not upload passwords, API keys, access tokens, private credentials, confidential documents or sensitive personal information to a public repository.
